

Disability Needs Assessment Questionnaire

Directions: It is imperative that you complete and return this form with a copy of your documentation to the Department of Counseling & Disability Services to have accommodations provided in a timely manner. If you wait, your accommodations may not be approved at the beginning of the semester. More information about documentation may be found on subsequent pages of this form.

Please be sure to complete at least two weeks before the beginning of the term. Please return this questionnaire to the Department of Counseling & Disability Services, Room 225 at 1630 Metropolitan Parkway, Atlanta, GA 30310. You may also fax this form to 404-756-4939.

1. In your own words, describe your physical, mental or learning disability.

2. List the accommodations you wish Atlanta Metropolitan College to provide for you during your college career:

3. Certain accommodations may require arrangements to be made well in advance. Please contact the Department of Counseling & Disability Services as soon as possible if you check any of the categories listed below. Please attach a separate page to explain the nature of your need.

- Campus mobility, including parking
- Orientation activities or placement testing
- Curriculum or course selection
- Class activities, including faculty presentation and testing
- Special academic equipment or support
- Dining Services
- Classroom assignment or class scheduling

4. In order to process your request for accommodations, Counseling & Disability Services will consult with the following offices as needed:

- Enrollment Services
- Student Support Services
- Dining Services
- Student Activities
- Student Affairs
- Academic Affairs
- Financial Aid
- Academic Advisement Center

We must have your permission to consult with these offices. Please indicate your approval by checking beside each office, and sign and date below.

Signature _____ Date: _____

In the event of an emergency evacuation would you require assistance? Yes No

Atlanta Metropolitan College is committed to carrying out the provisions of the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, civil rights laws designed to prohibit discrimination on the basis of disability. The determination to qualify a student as a student with documented disability is made on a case-by-case basis after carefully reviewing how the disability currently and substantially limits a major life activity.

General Documentation Guidelines

- Documentation must be typewritten on business letterhead from a licensed professional not related to the student who is qualified to give psychological and/or medical diagnosis. The name, credentials and signature of the licensed professional must appear on the documentation.
- The documentation must include all pertinent diagnoses, clearly stated and explained.
- Information outlining testing/assessment tools must be included. Learning disability testing must include the actual standard test scores; student must be tested using measures normed on adult populations.
- Documentation must include information on how the disability currently impacts the individual and document “how a major life activity is limited by providing a clear sense of the severity, frequency and pervasiveness of the conditions(s)”
(www.ahead.org/resources/best-practices-resources/resources/elements).
- All pertinent positive and negative effects of mitigating measures must be addressed. This could include a description of treatment, medications (and potential side effects) and assistive devices with estimated effectiveness of their impact on the disability.
- Documentation should provide recommendations for accommodations for the individual and include the rationale for the recommended accommodations.

Disability	Currency of Documentation	Accepted Evaluator	Elements of Documentation
ADD/ADHD	Within 3 years	Psychologist, psychiatrist, neuropsychologist, medical doctor	Evidence of early impairment from more than one setting; evidence of current impairment; summary of neuropsychological or psychoeducational assessments to determine the current functional limitation pertaining to an educational setting; prescribed medications, dosages and schedules; suggestions of accommodation.
Autism spectrum disorder/Asperger's syndrome	Within 3 years	Developmental pediatrician, neurologist, psychiatrist, psychologist, neuropsychologist	Academic testing – standardized achievements test, including standard scores; impact of symptoms on learning; ability to function in a residential college community; prescribed medications, dosages and schedules that may influence the learning environment.
Chronic illness and physical impairment	Depends on condition	Licensed medical professional	Documentation will vary based on the diagnosis, which would include conditions such as asthma, allergies, arthritis, diabetes, fibromyalgia, migraine, and multiple sclerosis.

Disability	Currency of Documentation	Accepted Evaluator	Elements of Documentation
Hearing impairment	Depends on whether condition is static or changing	Otorhinolaryngologist, otologist, licensed audiologist	Audiological evaluation or audiogram administered by a licensed audiologist; interpretation of the functional implications; suggests of accommodations.
Learning disability	Within 3 years	Clinical or educational psychologist, school psychologist, neuropsychologist, learning disabilities specialist	Assessment must be comprehensive (more than one test) and address <i>intellectual functioning/aptitude</i> , preferably the Wechsler Adult Intelligence Scale – III with standard scores; achievement – current levels in reading, math, and written language (acceptable instruments include the Woodcock Johnson Psychoeducational Battery III, Wechsler Individual Achievement Test or others); and information processing utilizing subtests from the WAIS-III, WJ III or other. Individual “learning styles”, “learning differences”, “academic problems” and “test difficulty or anxiety” do not constitute a learning disability. Please refer to General Documentation Guidelines above.
Psychiatric disorder	Current diagnosis within 6 months Psychological evaluation within 3 years	Licensed clinical psychologist, psychiatrist, psychiatric advanced practice registered nurse (APRN), licensed clinical social worker	Family history; discussion of dual diagnosis; current diagnosis (DSW-IV TR) indicates the nature, frequency, severity of symptoms – diagnosis without an explicit listing of current symptoms is not sufficient; prescribed medications, dosages and schedules that may influence the learning environment; types of accommodations, including any possible side effects.
Visual impairment	Depends on condition	Ophthalmologist	Ocular assessment/evaluation; suggestions on how the condition may be accommodated.
